Job description:

The work environment is dusty and noisy. Will need to work in evening mornings, evenings, nights or weekends.

Job Duties include but not limited to:

1. Test and observe electrical and mechanical conditions of equipment
2. Troubleshoot and repair electric motors, transformers, switchgear, generators and other electro-mechanical equipment
3. Use machining tools to fabricate or recondition parts
4. Wind, assemble and install various types of coils
5. Test and repair or replace faulty wiring or components in electrical switchgear
6. Test repaired motors, transformers, switchgear or other electrical apparatus to ensure proper performance

To apply for this job vacancy, please send your resume along with a cover letter and a reference letter from your previous employer to the following email: rtimmigration1979@gmail.com
