Work location: Oakville, Ontario (Hybrid)

Language of work: English

Salary range: \$37.50/hour

Hours: 37.50/week

Start date: As soon as possible

Benefits: Paid Vacation, Group Plan Benefits, Competitive salary

Duties and responsibilities:

- As a Financial Analyst, you'll conduct quantitative analyses of information affecting budgets, expenses, investment programs and other financial projects. You'll analyse and forecast financial, economic and other data to provide accurate and timely information for strategic and operational decisions.
- Analyze existing market mortgage products across lenders to make recommendations for action and/or modifications regarding focus on more popular products based on industry needs.
- Assist in the preparation of monthly, quarterly or annual financial statements
- Collect, compile, verify and analyze financial information and economic indicators so senior leadership and other sales team has accurate and timely information for making strategic and sales decisions.
- Collect and analyze financial information for assigned accounts, products/product lines or business units in order to track the organization's progress against its financial goals
- Analyze the financial implications of proposed investments or other transactions so senior leadership can evaluate alternatives against the organization's business objectives
- Evaluate industry, economic, financial and market trends to forecast the organisation's short-, medium- and long-term financial and competitive position
- Report current or expected financial performance and create financial models to guide decision-making
- Client Portfolio Analysis: Analyze client portfolios based on current held mortgage products, renewal dates etc and provide recommendations on mortgage and financing strategies to optimise financial outcomes.

- **Market Assessment:** Conduct existing housing market trends and analyses, prepare reports based on statistics to assess the viability of certain lenders and their mortgage products.
- **Risk and Return Assessment:** Support the structuring of loan and mortgage products by assessing risks and returns to meet client-specific needs.
- **Market Trend Analysis:** Monitor economic trends and analyse their impact on the mortgage market and investment climate for investor group of clients.
- **Collaboration and Innovation:** Collaborate with senior analysts and other team members to develop innovative financial solutions.
- **Regulatory Compliance:** Ensure compliance with regulatory standards and internal policies throughout the financial planning and investment process.

Benefits And Perks

Our team members fuel our strategy, innovation and growth, so we ensure the health and well-being of not just you, but your family, too! We go above and beyond to give you the support you need on an individual level and offer all sorts of ways to help you live your best life. We are proud to offer eligible team members perks and health benefits that will help you have peace of mind.

Qualifications:

- Bachelor of Business Administration or Commerce (Finance, Accounting, or Economics).
- 1 year of financial modelling and quantitative analysis experience
- Proven experience in financial analysis or a similar role.
- Strong understanding of mortgage products and financial planning.
- Excellent analytical skills and attention to detail.
- Ability to work collaboratively in a team environment.
- Strong communication and presentation skills.
- Great computer skills and proficiency in MDM (Master Data Management)
- SAP knowledge in Master data, General Ledger Accounting, Accounts

- Strong understanding of basic financial modelling, including NPV, IRR, and cash flow modelling.
- Expert level of knowledge required to include formulas, pivot tables, charting, etc.
- Expert in tools like powerpoint presentations, graphs, charts to effectively convey analysis results.
- Excellent comprehension and analysis of financial statements.
- Strong interpersonal and communication skills.
- High attention to detail.
