Education: College diploma

Language: English

Job location: Etobicoke

Salary: \$35 Per Hour

Years of Experience: 1 year

Vacancy: 1

Job Type: Full Time

Job id: CAJ1800470

Job description:

Mechanical Engineering Technician Job Responsibilities

- Support the development of engineering designs and specifications using both traditional and CAD tools.
- Conduct basic mechanical testing and analysis on equipment, parts, and materials to ensure functionality and safety.
- Collaborate on the creation of manufacturing tools, including moulds, dies, and jigs, to optimize production processes.
- Assist in evaluating mechanical installations and overseeing construction projects to confirm compliance with standards.
- Participate in setting up, troubleshooting, and maintaining machinery and mechanical systems.
- Provide technical input for refining and optimizing designs for manufacturing equipment and components.

- Perform routine inspections and assessments to identify issues in mechanical systems and recommend corrective measures.

This is a full-time employment opportunity.

We are looking for an individual with the following qualifications:

- Completion of a one- or two-year college program in mechanical engineering technology or related discipline
- 1+ years of work-related experience
- On-the-job training provided if needed

Compensation: \$35.00 per hour

Location: Travel to different sites in the GTA will be required. The Head office is located at 155 Rexdale Blvd #502a, Etobicoke, ON M9W 5Z8
