M1B 4Y7

#### **Salary**

\$36.00 hourly / 30 hours per week

**Terms of employment****Permanent employment**

Full time

**Start date**

Starts as soon as possible

**Shift**

Day, Morning, Weekend

**Vacancies**

1 vacancy

**OVERVIEW****Languages**

English

**Education**

College/CEGEP or other non-university certificate or diploma from a program of 1 years to 2 years

**Experience**

2 years to less than 3 years

**On site**

Work must be completed at the physical location. There is no option to work remotely.

**Work setting**

Clinic

**RESPONSIBILITIES****Tasks**

- **Develop document inventories** ? Requires proficiency in records lifecycle management, including retention and disposal scheduling using **Google Drive** for online storage and **external hard drives** for offline backups.
- **Classify, code, cross-reference, log, and store records** ? Involves use of barcode labeling systems, OCR-enabled scanners, and multi-monitor workstations to ensure accuracy and traceability. Must be able to manage both digital and physical records securely.
- **Compile statistics and reports on activities within records management services** ? Demands advanced **Excel** skills and experience in data auditing within healthcare data environments. Familiarity with reporting from **PACS** and **RIS** systems is an asset.

- **Develop, implement, and maintain records classification, retention, and secure disposal schedules to ensure compliance and operational efficiency.** Manual compliance tracking and documentation are essential to ensure regulatory alignment and audit readiness.
- **Label, prepare, and transfer information files according to established records management life-cycle procedures and schedules** ? Involves handling **encrypted external drives** and secure shredders for classified document disposal. Must ensure traceable transfer protocols and audit-ready documentation.
- **Maintain access lists for security-classified records** ? Requires experience managing access control systems, conducting audit trail reviews, and maintaining security clearance protocols. Familiarity with **HRM systems** used for secure patient record transmission is preferred.
- **Operate information retrieval systems to research and extract records** ? Utilizes **PACS** and **RIS** platforms for accessing medical imaging and clinical reports. Experience with Health Information Systems (HIS) and provincial databases is beneficial.
- **Analyze technical documents and reports** ? Requires ability to interpret **diagnostic imaging reports**, technical documentation, and regulatory submissions with precision and confidentiality. Must be comfortable navigating PACS/RIS environments and healthcare terminology.

## **EXPERIENCE AND SPECIALIZATION**

### **Computer and technology knowledge**

- **MS Office** ? Advanced use of Excel for statistical reporting, Word for compliance documentation, and Outlook for secure interdepartmental communication
- **Document Management Systems** ? Includes Google Drive for online document storage and external hard drives for offline backups.
- **Computer-Assisted Records Management Systems**
  - **Medical Imaging and Records Systems** ? Familiarity with PACS, RIS, and HRM platforms for secure transmission, scheduling, and management of medical images and patient records.
- **MS Outlook** ? Used for secure interdepartmental communication.
