Job Description

How You'll Make an Impact:

- Serves as an electrician repairing, installing, replacing and testing electrical circuits, equipment, and appliances.
- Uses hand tools and testing instruments.
- Inspects and tests electrical equipment, lighting, signal, communication, and power circuits.
- Replaces faulty switches, sockets, and other elements of electrical systems.
- Inspects completed work for conformance with requirements of local building and safety codes.
- Estimates time and material costs on electrical projects.
- Requisitions new electrical supplies and equipment.
- Document all work in the CMMS system.
- Identifies and corrects unsafe working conditions with management oversight.
- Isolates defects in wiring, switches, motors and other electrical equipment using testing instruments such as ammeter, ohmmeter, voltmeter, testing lamp, or growler.
- Dismantles electrical machinery and replaces defective electrical or mechanical parts such as gears, brushes, and armatures.
- Mounts motors, transformers and lighting fixtures into position and completes circuits according to diagram specifications.
- Develops, under management supervision, capital project scope and budget for equipment replacements and energy conservation opportunities.
- Verify and implement preventive maintenance standards on all electrical distribution equipment.
- Interprets blueprints and works from sketches or verbal instructions. Inspects completed work to ensure compliance with engineering specifications and local building codes.
- May perform Fire Technician services or repairs in one or more skill areas, including fire alarm fault finding, panel bypass and monitoring, or other related activities.
- Attends training programs (classroom and virtual) as designated.
- Applies all applicable provincial and related local safety requirements to all assigned work.
- Complies with all company safety and risk management policies and procedures.
- Performs all work in accordance with established safety procedures
- Participates in regular safety meetings, safety training and hazard assessments.
- Reports all accidents and injuries in a timely manner.
- May supervise other tradespersons, including contractors or other Sodexo personnel.
- May perform other duties and responsibilities as assigned.
- Will work in both indoor and outdoor environments, in varying weather conditions.

- Varying schedule to include evenings, nights, holidays, weekends, and extended hours as business dictates.
- The noise level in the work environment is usually moderate to loud.
- Wears protective clothing and/or Personal Protective Equipment required by the work environment or governmental regulations.
